## CASCADE

### Variable configuration grab rail system

The CASCADE wall hand-grip is an ergonomically shaped polymer grab-rail. It is designed to be used in a shower or bath area at home or a care facility.

The CASCADE may be mounted vertically, horizontally or diagonally. The hand-grip can be attached in a chain of grips or single standalone grip.

- Concealed fittings, secure and aesthetically pleasing
- Versatile design to fit any bathroom
- Variable shape for personalised needs
- Width between nodes 29cm
